

SHREYA MEHTA

MERN Stack Developer | Full-Stack Software Developer | React.js · Node.js · Laravel · Next.js

Pune, Maharashtra, India | +91 8805671505 | mehtashreya1506@gmail.com | [linkedin.com/in/shreyamehta150506](https://www.linkedin.com/in/shreyamehta150506) | github.com/shreyamehtawork | [shreyamehta](#)

PROFESSIONAL SUMMARY

Full-Stack Software Developer with hands-on experience building scalable web applications using React.js, Next.js, Node.js, and Laravel (PHP). Proven track record integrating third-party REST APIs for insurance-tech products, improving service stability by up to 35% and reducing bug turnaround time by 30% through structured testing and UAT coordination. Skilled in JavaScript/TypeScript and relational/NoSQL databases (MySQL, PostgreSQL, MongoDB), with growing expertise in AI-driven development workflows (LLMs, RAG, agentic tools).

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, PHP, Python, Java, HTML5
- Frontend: React.js, Next.js, Redux, Tailwind , CSS, Bootstrap, Responsive Web Design
- Backend: Node.js, Laravel (PHP), RESTful API Development, MVC Architecture
- Databases: MySQL, PostgreSQL, MongoDB, SQLite
- Testing & QA: Functional Testing, Unit Testing, Integration Testing, UAT Coordination, Debugging , Manual Testing
- Tools & Platforms: Git, GitHub, Postman, Vercel, Figma, Canva
- AI/Agentic Tools: GitHub Copilot, Claude, ChatGPT (Codex), Grok, Cursor, Antigravity
- Cloud (In Progress): AWS Developer Associate (DVA-C02)
- Methodologies : Agile Development , SCRUM

WORK EXPERIENCE

Software Developer — Freelance July 2026 – Present

- Developed and maintained scalable client web applications end-to-end using React.js, Node.js, and modern JavaScript/TypeScript, managing full product lifecycle from requirements through deployment.
- Leveraged AI-assisted development tools (GitHub Copilot, Claude, ChatGPT/Codex) across frontend and backend workflows to accelerate feature delivery and reduce debugging time.
- Executed Functional, Unit, and Integration Testing across client applications, improving release stability and reducing post-deployment defects.

Software Developer Intern (6 months) | Novacred Insurance Pvt Ltd — InsureTech Startup Dec 2025 – June 2026

- Adopted and applied Laravel (PHP) for backend development, supporting the company's transition to a new backend framework alongside its existing MERN stack.
- Performed end-to-end functional testing and bug resolution on the Pet Insurance module, improving service stability by 35%.
- Built the complete Pet Insurance product line, integrating third-party REST APIs from BAJAJ, GoDigit, and Generali Centrali to enable real-time quote generation and policy issuance.
- Led UAT coordination and integration testing for Motor Insurance products across GoDigit and BAJAJ, ensuring accurate data flow between internal systems and insurer APIs prior to production release.

MERN Stack Developer Intern (3 months) | The R.D. Group of Industries July 2025 – Oct 2025

- Migrated frontend architecture to Next.js with TypeScript, modernizing the codebase and reducing page load time.
- Reduced bug turnaround time by 30% by independently managing end-to-end testing across development cycles.
- Delivered 7+ client web projects independently, owning design, development, and QA from requirements through deployment.

PROJECTS

- **NKP World – Product Management & Handling System** — Built to streamline product tracking and updates.
- **Enterprise Corporate Web App** — Full-stack corporate application supporting internal business operations.
- **Nexora Tech Solutions — Multi-Role IT Service Management Platform** — Engineered a scalable web application using React.js, Node.js, TypeScript, JavaScript, and MongoDB to manage IT service offerings, improve customer engagement, and deliver a seamless user experience.
- **Third-Party API Integration & Product Development (Vehicle Insurance) | Novacred Insurance Pvt Ltd** — Integrated multi-insurer REST APIs (BAJAJ, GoDigit) for real-time vehicle insurance quote generation.
- **Pet Insurance Product Development & API Integration | Novacred Insurance Pvt Ltd** — End-to-end product build via third-party insurer APIs; improved service stability by 35% , end-to-end functional and UAT testing .
- **Chloe's Venture – Shopping Web Application | The R.D. Group of Industries** — Built using ReactJS , NodeJS , ExpressJS , MongoDB.
- **PaperTrade – Virtual Trading System | Self-Initiated** — Simulated real-time trading logic and portfolio tracking built using Python .
- **Cakeify – Multi-Role Order Management System | Self-Initiated** — Role-based order lifecycle management application built using MERN Stack.

EDUCATION

BBA.CA (Computer Applications) — Savitribai Phule Pune Univ. (CGPA: 8.35) Pune | July 2026

Higher Secondary Education — Brihan Maharashtra College of Commerce (82%) Pune | May 2023

Schooling — St. Helena's High School (86%) Pune | May 2021

CERTIFICATIONS

- Full Stack Web Development
- React & Redux (MERN Stack) Development
- AWS Certified Developer – Associate (DVA-C02) — In Progress
- AI Engineering: LLMs, RAG, QLoRA & Agentic Systems — In Progress
