

SHREYA MEHTA

Software Developer | Full-Stack Development | Google Student Ambassador

Pune, Maharashtra, India | mehtashreya1506@gmail.com | +91 8805671505 | [in/shreyamehta150506](https://in.shreyamehta150506) | shreyamehta.app

SUMMARY

Full-Stack Software Developer experienced in JavaScript (ES6+), data structures, and object-oriented programming, with hands-on experience building client-facing, interactive web applications while designing, developing, testing, and maintaining frontend and backend features using React.js, Node.js, JavaScript and REST APIs & database handling across relational (MySQL, MongoDB, SQLite) databases, with hands-on exposure to debugging, UAT, and production go-live. Growing expertise on Agentic AI, RAG and LLMs. Quality-focused and ownership-oriented, with Agile/Scrum methodology and Git-based version control.

TECHNICAL SKILLS

Languages: HTML5, JavaScript, TypeScript, Python, PHP

Data Structures & CS Fundamentals: Arrays, Linked Lists, Stacks, Queues, Trees, Hash Maps, Sorting/Searching Algorithms (implemented in JavaScript); Object-oriented Programming (classes, prototypes, encapsulation)

Frontend & UI: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, UI Development, jQuery

Backend & APIs: Node.js, Express.js, Laravel (PHP), REST API Development & Integration, Webhooks, Web Scrapping, MVC Architecture

Databases: MongoDB, MySQL, PostgreSQL, SQLite, ChromaDB (Vector Store), Database Design, Schema Design

Testing & Quality: Functional Testing, Integration Testing, Manual Testing, Debugging, UAT Coordination, System Validation

Cloud & DevOps: AWS (IAM, EC2, ELB, ASG, RDS)

Tools & Version Control: Git, GitHub, Postman, Vercel, VS Code

Methodologies: Agile Development, Scrum, SDLC, Sprint Stand-ups, Task Estimation

AI Tools: GitHub Copilot, Claude, Claude Code, ChatGPT (Codex), Cursor, LLMs, RAG, Gemini API, GPT API

EXPERIENCE

Nexora Tech Solutions — Software Developer Intern | July 2026 – Present

- Developed and maintained 2 IT Service Management web applications using React.js, Node.js, and JavaScript.
- Built a rule-based chatbot assistant using a queue-based data structure for handling 50+ customer queries per/day, reducing manual intervention.
- Built a type-aware print pipeline reducing a 6-step manual process to 1 step (~80% fewer manual steps).
- Used AI tools across workflows to accelerate feature delivery & reduce debugging time from weeks to days.

Novacred Insurance Pvt Ltd (Zapfin Technologies - Docboyz) — Software Developer Intern | December 2025 – June 2026

- Adopted Laravel PHP for backend development and developed object-oriented MVC architecture, and MySQL for production software modules.
- Built and launched the Pet Insurance product from scratch, owning insurer onboarding, REST API development and integrations across 3+ insurers, UAT, production go-live, and real-time quote generation and policy issuance.
- Led UAT coordination and system validation for 4+ insurer integrations across Motor and Pet Insurance, taking integrations through production.
- Performed code reviews, end-to-end testing, debugging, QA, and defect resolution for the entire application improving stability by 35%.
- Onboarded and led 15+ interns through application and product development while collaborating with senior developers.

The R.D. Group of Industries — MERN Stack Developer Intern | July 2025 – October 2025

- Delivered 4+ client web projects independently, owning UI/UX design, development, testing, QA, and deployment.
- Reduced bug turnaround time by 30% by independently managing end-to-end testing across development cycles.
- Adapted to JavaScript/TypeScript and Next.js for web application development, with hands-on testing, problem-solving, and debugging.

PROJECTS

AI-Powered RAG-Based WhatsApp Assistant | Self-Assisted

- LLMs, React.js, Node.js, JavaScript, Express.js, REST APIs, WhatsApp Business API (Meta), ChromaDB, GPT API, Gemini API, Python, Docker.
- Developed Meta webhook verification, inbound message ingestion, outbound reply dispatch through WhatsApp Cloud API, and AI response generation; reduced human intervention and time by 50%.
- Built a Python web scraper and Node.js RAG Pipeline using hash-map based lookups for fast retrieval.

Automated Print Order Management System | MIT-WPU / Nexora Tech Solutions

- React.js, Express.js, Node.js, MySQL, browser-native print APIs, REST APIs.
- Automated the printing workflow and reduced manual human flow steps from 6 to 2.

Vehicle Insurance Third-Party API Integration & Product Development | Novacred Insurance Pvt Ltd

- Laravel (PHP), MySQL, React.js, HTML5, CSS3, REST APIs, Git, GitHub, CI/CD, AWS EC2, AWS IAM.
- Developed Integrated multi-insurer REST APIs for real-time vehicle and pet insurance quote generation and policy issuance.

Chloe's Venture - Shopping Web App | The R.D. Group of Industries

- Built a responsive client-side UI using React, Node.js, Express, MongoDB, Tailwind CSS, JavaScript.
- Developed frontend UI/UX and responsive web experiences with real-time updates.

EDUCATION

Bachelor's in Business Administration and Computer Applications — 8.35 GPA | Savitribai Phule Pune University, Pune | 2026

- Selected as Google's Campus Ambassador & Google Gemini representative, enabling access for 50+ students to Google Gemini Pro models.
- Led a team of 8 for a Technical Group discussion round and a team of 3 for Application Development and Presentation round.

Higher Secondary Education (HSC) — 82% | Brihan Maharashtra College of Commerce | May 2023

Matriculation (ICSE) — 86% | St. Helena's High School | May 2021

CERTIFICATIONS

- Full Stack Web Development
- React Redux MERN Stack Development
- AWS Certified Developer - Associate (DVA-C02) — In Progress
- AI Engineering: LLMs, RAG, QLoRA & Agentic Systems — In Progress
